INTRODUCTION TO WESTCHESTER COUNTY AIRPORT

1. EXISTING FACILITIES

GLOSARY

Aircraft: The use of aircraft by companies for the transport of passengers or goods for business purposes. Aircraft used in corporate aviation are generally not available for public hire.

Light General Aviation: All civil aviation operations other than scheduled passenger airlines and non-scheduled air transport operations. Examples: private flying, air ambulance, police aviation, aerial firefighting, skydiving, flight school.

Government Aviation: The use of aircraft in Government operations for transportation of civil servants to do their jobs providing public safety, security, and low enforcement.

Fixed Based Operator: A commercial business authorized by an airport to operate on the airport and provide aeronautical services such as fueling, aircraft storage, tie-down and parking, aircraft rental, aircraft maintenance.

Based Aircraft: An aircraft not a operational & air worthy, which is typically based at the facility for a majority of the year.
